

9. Rhein-Wein Symposium

Thu, 15.05.2014– Fr, 16.05.2014

Botanical Institute, KIT, Kaiserstr. 2, Karlsruhe

Guests welcome!

Thursday 15.05.2014, 9:30-12:45 Key Note Speakers

09:30 Philippe Huguency (Colmar) *The Chemistry of Taste - Terpenoids*

10:15 Jochen Bogs (Neustadt) *The Chemistry of Defence - Flavonoids*

Coffee Break 11:00-11:15

11:15 Christophe Ritzenthaler (Strasbourg) *Grapevine Viruses*

12:00 Rudolf Eibach (Siebeldingen) *From Breeding to Practice*

Lunch Break 12:45 – 14:00

Thursday afternoon, 15.05.2014, 14:00-15:30 Research Reports

Selected from the submitted abstracts

Coffee Break 15:45-16:00

Thursday afternoon, 15.05.2014, 16:00-17:30 Internal Project Meeting of “Bacchus”

Thursday afternoon, 15.05.2014, 18:00 Dinner

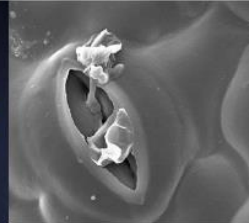

Friday, 16.05.2014 “BACCHUS Forum Young Scientists”

09:30-11:00 Poster session with short highlights (attic of the Botanical Garden)

11:15-13:00 BACCHUS WORKSHOP – Methods for Functional Grapevine Research

9. Rhein-Wein Symposium

Thu, 15.05.2014– Fr, 16.05.2014

Botanical Institute, KIT, Kaiserstr. 2, Karlsruhe

Guests welcome!

Thursday afternoon, 15.05.2014, 14:00-15:30 Research Reports

14:00 Hanns-Heinz Kassemeyer (WBI, Freiburg)

180 years research on the causative agent of Grape Downy Mildew

14:30 David Halter (INRA, Colmar)

Metabolites in Vitis vinifera and resistance to Plasmopara viticola

14:45 Xin Guan (UHA, Colmar)

Grapevine Trunk Disease

15:00 Jasmin Dürr (ALU, Freiburg)

Role of auxin in early events of grapevine pathogen interaction

15:15 Jens Dudenhöffer (JKI, Siebeldingen)

Comparison of Rpv3 and Rpv10 resistance loci against Plasmopara viticola

15:30 Günther Buchholz (AIPlanta, Neustadt)

Early events in infection of Downy Mildew of Grapevine

Coffee Break 15:45-16:00

Friday, 16.05.2014 "BACCHUS Forum Young Scientists"

09:30-11:00 Poster session with short highlights (attic of the Botanical Garden)

11:15-13:00 BACCHUS WORKSHOP – Methods for Functional Grapevine Research

Jasmine Dürr (Heidelberg) *Dual luciferase assay for promotor activation studies*

Javier Gomez (Hohenheim) *Single sporangia lines for Downy Mildew*

Jens Dudenhöffer (Siebeldingen) *Tools for Functional Genomics*
